

TSM系列色母机 TSM Series Screw Dosers

TSM

12 16 20 25 (rpm)

± 1%

12 16 20 25

0.08~38kgs/hr

Screw Dosers are extensively used for precise auto- proportional dosing & blending of virgin, regrind materials, masterbatch and other various additives. The microprocessor accurately controls rate of revolution of a motor for high precise metering with an accuracy of ± 1% from set points. This series can be used on the differential applications with injection molding machines and extruders. A brushless DC motor is used for this series. The dosing screws are offered with various size: 12, 16, 20 and 25 for developing diverse models with throughputs from 0.08~38kgs/hr. TOPSTAR developed double- color screw dosers according to customers' various demands which can be satisfied with diverse applications.

● 特点 Features

50

- Digital microprocessor can process masterbatch & regrind material by metering accurate percentage.
- Using brushless DC motor features free from maintenance and long service life.
- Module dismantled design, easy for change screw and sleeve.
- The dosing units removed from discharging seat without material leakage, monitoring material level from the sight- see - through window on the side of transferred seat.
- 50 sets of parameter recipes are available for permanently recording and reading function, operating machines quickly without adjusting parameters again.
- Feeding base adopt different channels for material & masterbatch separately, easy change material & masterbatch within short time.
- Screw dosers can set metering time to avoid annoyance for unstable masterbatch volume while working with injection molding machine because of different time for every cycle of metering.
- Forced material cleaning function is convenient to change masterbatch.
- Material level detection sensor is available as option, alarm for material shortage.
- It can operate with main screw of extruders, acceleration and deceleration simultaneously.
